

Threat Intelligence Security Report

Target: 8.8.8.8

Resolved IP: 8.8.8.8

Risk Score: 25/100

Risk Level: Medium

Scan Time: 2026-05-06 09:32:40

Open Ports

- Port 21 : FTP
- Port 53 : DNS
- Port 443 : HTTPS

Vulnerabilities

- Port 21 (FTP): Insecure file transfer may allow credential exposure.
- Port 53 (DNS): Can be abused for DNS amplification attacks if misconfigured.
- Port 443 (HTTPS): Generally secure, but SSL/TLS configuration should be audited.

Recommendations

- Disable FTP or replace it with SFTP.
